

6" METRO DECORATIVE BOLLARD COVER

Covers up to 50"
max pipe height

Cross Section of Sleeve

Material: Polyethylene Thermoplastic (LDPE) with ultra-violet resistance and anti-static properties.

Wall thickness: 1/4"

Diameter: 6" (ID 6 7/8") Fits over 6.625" OD pipe

Height: 52" overall, fits over max 50" pipe - can be cut to custom height for no additional charge.

Installation: The cover come with 2 strips of adhesive foam. You apply the foam tape to the bollard post by wrapping it around the diameter, and slide the cover over the post.

Colors: Can be made in any color. See color chart below for standard colors. Custom colors are available, including color matching.

PLEASE NOTE: Colors can look very different on a computer monitor vs in person. The Pantone color chart can be used to see that color in a paint store.
